

To whom it may concern,

It has been a pleasure to work with the Mallard Group for the past 6 months. During this time the Mallard Group has completed numerous store projects for our company.

Before the Mallard Group had an official contract with Best Buy they took the time and money to fly out on their own accord to observe a test store being done. This was a significant step on their part because it showed that they were willing to invest in our relationship.

They have always been punctual, professional and responsive. I am not only recommending the Mallard Group to other businesses, but I have already recommended the Mallard Group to other divisions in our company.
