To Whom It May Concern:

I would like to take this time to give my personal recommendation for Mallard Group. Over the past five years they have executed both new store and existing store set-ups. Their teams are able to execute "turn key" projects including two story backroom fixtures, sales floor fixtures, graphics, merchandising and pricing. Mallard Group Project Managers are on site to execute everything from the layout to the finished project in order to have us up and running in a timely manner. Whether it is in Atlanta or Los Angeles, we know we can count on the same level of service and professionalism.

Sincerely,

A handwritten signature in blue ink, appearing to read "Frank Del Casale". The signature is fluid and cursive, with a large initial "F" and "D".

Frank Del Casale
Senior Store Planning Manager
U.S. Automotive Parts Group
